New Technology Press Release

5 Custom Weld Boxes Delivered by RMTS in July

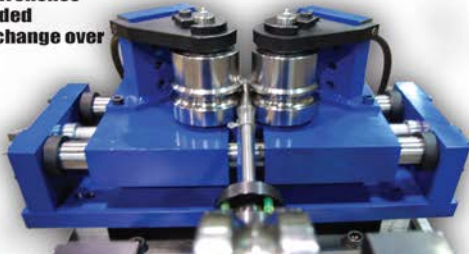

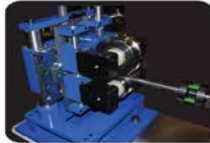

Romeoville, IL, August 12, 2014: Roll Machining Technologies and Solutions is proud to announce the delivery and installation of 5 custom weld boxes to their tube and pipe customers. "This equipment delivery was a challenge for us," stated Joe Olson, RMTS C.E.O., "but with our dedicated staff, plan of action, and quality control, our customers were extremely satisfied with the new technology we provided."
